

# Lesson Time and Supply List

## Amount of Prep Time:

We recommend 30-45 minutes depending on your expertise level with the content. Each module will vary depending on your previous experience with the content and technology.

## Materials:

Each student will need

- a scenario handout.
- access to a computer to view videos (unless you decide to show the video through the class projector unit.)
- to be added to your online collaborative tool.

You will need

- to print and cut scenario handouts.
- to download or develop a partially completed “Who Receives a Higher Dose?” table to be completed with your students.
- to set up your online collaborative tool.

## Total Lesson Time:

<b>Lesson Activity</b>	<b>Amount of Time in Class</b>
Video: Getting Started with Everyday Toxicology	3 Minutes
Group Activity: Who Receives a Higher Dose?	20 Minutes
Post-Activity Discussion: Who Receives a Higher Dose?	10 Minutes
Video: The Poison Is the Dose	5 Minutes
Guided Discussion: Conclusion	5 Minutes
<b>Total Time</b>	<b>43 Minutes</b>
<b>Lesson Activity</b>	<b>Amount of Time out of Class</b>
Video: Comparing Dose/Response Curves	5 Minutes
Reflective Questions: Comparing Dose/Response Curves	15 Minutes
<b>Total Time</b>	<b>20 Minutes</b>
