

Veterinary and Biomedical Sciences

PENN STATE COLLEGE OF AGRICULTURAL SCIENCES

Penn State's Veterinary and Biomedical Sciences degree program provides a strong foundation in the biological and physical sciences. Applied experience at the junior and senior levels help prepare students to solve real-world problems in veterinary medicine and biomedical research. Prep for graduate, veterinary, or medical school and apply scientific principles to real-life animal care, improving animal health, food safety, and disease control. If you love science, research, and a challenge, then our Veterinary and Biomedical Sciences program may be a perfect fit.

Make a difference in
your world.

Is Veterinary and Biomedical Sciences at Penn State right for ME?

Veterinary and Biomedical Sciences

Our graduates find employment opportunities in veterinary medicine, human medicine, government, biotechnology, pharmaceuticals, nutrition, public health, and other challenging fields. Whether you want to work as a veterinarian, biomedical researcher, or animal biologist, **the Veterinary and Biomedical Sciences degree program provides an active learning environment to help you get the experience necessary for success.**

Veterinary and Biomedical Sciences graduates are enrolled in eighteen of the twenty-eight U.S. veterinary schools, reflecting the national prestige of the program—a place where students can grow and learn among the best. Our graduates' vet school admission rates have exceeded that of the national average for decades.

The College of Agricultural Sciences awarded more than \$1.8 million in scholarships during the 2007–08 academic year.
