

Experience Penn State

with current students during a three-day **STAY OVER**

**Thursday, Friday,
and Saturday**

**March 26, 27,
and 28, 2009**

University Park

for students
from all
Penn State
campuses

Meet fellow students, world-renowned faculty, and your associate dean!

The Penn State Pre-Vet Club and the Penn State Biomedical Sciences Club invite you to experience college life by spending two nights at the Penn State University Park campus.

Club members will host students with offers of admission to any Penn State campus who have an interest in our Veterinary and Biomedical Sciences, Toxicology, and Immunology and Infectious Disease programs.

You will arrive on Thursday afternoon to meet your student host and find out more about our programs in an orientation session. On Friday you will attend classes and tour the campus with your host, and enjoy social events in the evening. You will return home on Saturday morning. Dinner will be provided for you on Thursday and Friday night.
